12th March 2020

Dear Parents

I am looking for parents from science, technology, maths and engineering backgrounds to come in to school to chat to our wonderful children about your careers.

I am hoping to run an assembly on Wednesday 18th or 25th March from 10 – 10:30, and have a range of parents, grandparents, aunts, uncles who are willing to speak to the whole school about their chosen career and inspire our young children to think about entering a STEM profession for themselves.

We want to encourage the next generation as much as possible to think about these careers in order to keep these important industries thriving in our country. It would also be great, if in the spirit of diversity, we could have some people who challenge gender stereotyping i.e. male nurses, female pilots or someone who regardless of a disability has a successful career.

Your talk does not need to be long, 5-10 minutes at the most, however if you feel you could offer your services for a longer time period and wish to bring with you some props or a power point, I would still love to hear from you as we could then arrange a separate assembly for those people.

I look forward to hearing from you and thank you in advance for your help and assistance. Please complete the attached slip so that I can make contact with you directly. If you have visited any of the restricted areas or have a cough or heavy cold please do not to come - but to let us know and we will try to re-schedule some time in the future.

Kind regards

Mrs N Gale
Science Coordinator
