Dear Parents and Carers,

Some of you may remember that last year we told you of an excellent Maths app to support your child's mathematical learning. White Rose is a 1 Minute Maths learning app produced by White Rose Maths. White Rose is the teaching scheme and resource bank we use to support your child's daily Maths lessons. We strongly recommend this educational app and encourage you to download it to support your child's Maths learning in school.

The **1-Minute Maths** app has been updated and now has content to support subitising (the ability to instantaneously recognise the number of objects in a small group without the need to count them), addition, subtraction, multiplication and division. The updated content means there are activities for all learners from Windmills to Year 6. If you had previously downloaded it, please update the app to be able to use the new features.

Our top 10 reasons for using 1-Minute Maths:

- Excellent number practice with no distractions.
- Enjoyable tasks children want to complete.
- Instils basic number concepts during early years.
- A clear process that children pick up immediately
- No login or internet access needed. Download and play!
- A motivator – children enjoy trying to beat their last score!
- Helpful hints give support when needed.
- Brilliant for building confidence and fluency.
- Random question generator instils concepts, not answers.
- Completely FREE to download!

To find out more about this excellent Maths resource, please follow the link where you will find more information and a link to different app download stores. You do not need a White Rose account to download this app.
