RESPECT - UNDERSTANDING - PEACE - HONESTY - RESPONSIBILITY - TEAMWORK

25th January 2022

Dear Parents and Carers,

We would like to bring to your attention a fantastic (and free) Maths learning app produced by White Rose Maths. White Rose is a teaching scheme and resource bank used in school as part of our daily Maths lessons. We strongly recommend this educational app and encourage you to download it to support your child's Maths learning in school.

The app is called '1-Minute Maths' and is aimed at Key Stage 1 children and focuses on addition, subtraction and subitising (the ability to instantaneously recognise the number of objects in a small group without the need to count them). Some children in Key Stage 2 may also find the content helpful.

1-Minute Maths offers children engaging and easily accessible practice in basic number. There's no specific route or starting point. Having chosen a topic, each user answers a series of randomly generated questions (a different set of questions every time means they learn the concept, not a sequence of answers). When the one minute's up, the questions are automatically marked and presented on a breakdown screen, giving instant feedback on how they've done. If they're struggling with a question, a 'Hint' button reformats the question as a familiar manipulative display that mirrors the approaches used in the White Rose Maths schemes of learning.

To find out more about this excellent Maths resource, please follow the link where you will find more information and a link to different app download stores. You do not need a White Rose account to download this app.
