

## White Rose Maths Instructions

You will need to click this link each day:

<https://whiterosemaths.com/homelearning/year-6/>

This link will take you to the Home Learning – Y6 page and you will need to select **Summer Term – Week 1 (w/c 20 April)** don't worry that this date is wrong, we are following on from last week. You will see that lesson 1 is called 'Lesson 1 – Vertically opposite angles' and you will be able to watch the video (as many times as you wish) and complete a worksheet related to what you have just watched (This is in red on the right hand side). The answers are in blue to help you check or to help if you get stuck.

We would like you to watch the video and complete the activity each day:

Monday – Lesson 1 – Vertically opposite angles

Tuesday – Lesson 2 – Angles in a triangle

Wednesday – Lesson 3 – Angles in a triangle – special cases

Thursday – Lesson 4 – Angles in a triangle – missing angles

Friday – Lesson 5 – Friday Maths challenge

If you find these you need additional resources, we have put extra resources in our Y6 resources tab for the week. Please do not hesitate to contact us if you have any questions.

Mrs Morris & Mrs Ghaffar
