

White Rose Maths Instructions

This week we are going to try something different for maths. Every day for the next few weeks I am going to ask you to watch a Maths video and complete a worksheet based around that video. We are going to be looking at money, multiplication and division this week and hope that you enjoy using these resources.

You will need to click this link each day:

<https://whiterosemaths.com/homelearning/year-3/>

This link will take you to the Home Learning – Y3 page and you will need to select **Week 3** for this first week, Money and multiplication and division. Click on lesson 1 and you will be able to watch the video (as many times as you wish) and complete a worksheet related to what you have just watched (This is in red on the right hand side). The answers are in blue to help you check or to help if you get stuck.

I would like you to watch the video and complete the activity each day:

I will review this on Friday and if these are too simple for you or too tricky please do not skip ahead but let me know so I can support you.

Mrs Gale
