

Dear Cherry Platts,

Hello again! We hope that you had fun on VE Day and celebrated it in style with your family. We know that many of you were really excited about the event and explored the history behind it.

This week, there is Part 2 to your Science project, finding the answers to 4 additional key Science questions. This is expected to take the next 2 – 3 weeks so take time to really research each element.

Alongside this project, please continue to complete:

- Maths -
- Grammar – focus this week is on the different sounds made by the –ough spelling.
- English – Looking at the Twin Tunnel Trouble text and then doing the activities given on a separate sheet. Ultimately, you are going to finish the story as we know how much you have wanted to do story writing in class again. (If truly inspired, why not write your own adventure story from scratch?)
- Work on TT Rockstars to get your times tables up to speed.
- Daily reading to an adult, including some time with them questioning you about the text.

Please also remember the great resources on Nessy for you to have a look at.

If you have any questions, then please email them and one of us will aim to respond to you as soon as possible. A quick reminder too that if you have not yet given your agreement to the Internet Code of Conduct, to do so as we can then invite you to join us in the weekly Zoom Sessions. If you have lost that Parent Mail, just let us know.

Take care and stay safe.

Best wishes,

Mrs Kretschmer and Mrs Morris ☺
