

## White Rose Maths Instructions

Every day for the next few weeks we are going to ask you to watch a Maths video and complete a worksheet based around that video. We are going to be looking at decimals this week and hope that you enjoy using these resources.

You will need to click this link each day:

<https://whiterosemaths.com/homelearning/year-6/>

This link will take you to the Home Learning – Y6 page and you will need to select **Week 1** for this first week. You will see that lesson 1 is called 'Lesson 1 – Using ratio language and you will be able to watch the video (as many times as you wish) and complete a worksheet related to what you have just watched (This is in red on the right hand side). The answers are in blue to help you check or to help if you get stuck.

We would like you to watch the video and complete the activity each day:

Monday – Lesson 1 – Using ratio language

Tuesday – Lesson 2 – Ratio and fractions

Wednesday – Lesson 3 – Introducing the ratio symbol

Thursday – Lesson 4 – Calculating ratio

Friday – Lesson 5 – Using scale factors

If you find these you need additional resources, we have put extra resources in our Y6 resources tab for the week. Please do not hesitate to contact us if you have any questions.

Mrs Morris & Mrs Ghaffar
