

### **PSHCE Challenge**

For this week and the week after half term for PSHE I would like you to choose two activities from this website to complete. This work is about connecting with the older generation and completing activities to show that you care.

You must discuss this with you parents and only send activities if it is safe to do so! Your parents could send the activities you choose to a family Member or a neighbour or even to a care home.

If you would like to write a letter or a postcard you could take a picture of it and I will be happy to send it via the school. Just send me an email and ask.

This link has the information that you need:
